Greg D'Arcy

Business Analyst at AARNet (Australia's Academic and Research
Network)
Greater Melbourne Area

Summary

I am a digital professional having worked in a range of roles in the
research and education sectors, such as digital project management,
research data analyst, web development, online communications
and training. I have strong communication and organisational skills
with the ability to juggle complex and competing priorities. My core
strengths are based on managing client expectations and building
strong client relationships.

Experience

AARNet (Australia's Academic and Research Network)
Business Analyst
May 2021 - Present (3 months)
Melbourne, Victoria, Australia

Capturing business requirements, use cases and functional specifications for
research data-centric Cloud Services and Platforms.

The University of Melbourne
Research Data Analyst/Platform Administrator
March 2016 - May 2021 (5 years 3 months)

I provided expert advice and support to academics and researchers in the
Humanities, Arts and Social Sciences on on the use of research software and
data management in their research.

Writer's Web Communications
Consultant
June 1997 - March 2016 (18 years 10 months)

Personal consultancy services in content development, online marketing and
web development.

La Trobe University
Project Manager, Major Open Data Collections
October 2014 - December 2015 (1 year 3 months)

I managed a nationally funded research project that produced a Population Health data collection focused on cardiovascular disease. I provided executive support to a working group of senior staff and researchers to draft the policies and procedures for managing Research Data and Primary Materials in accordance the Australian Code for the Responsible Conduct of Research (2007).

Education Services Australia
Senior Project Manager
June 2005 - July 2014 (9 years 2 months)

I have managed complex digital content projects to support the implementation of the Australian curriculum across education jurisdictions. I managed over 50 projects with Australian cultural organizations and government agencies, providing advice on copyright and licencing, metadata standards, Accessibility and Quality Assurance.

Monash University
Lecturer
January 2005 - November 2006 (1 year 11 months)

I prepared and delivered lectures and tutorials for under-graduate and post-graduate students in Advanced Multimedia.

RMIT University
Lecturer
